

you need:

- 1-6 or 0-9 dice
- pencils
- paper clip and pencil

Making numbers for 2 players

First of all

Write your names in the boxes.

You are each going to create two four-digit numbers.

When it's your turn

Roll the dice and say the number.

Write that number in one of your eight boxes.

The end of the game

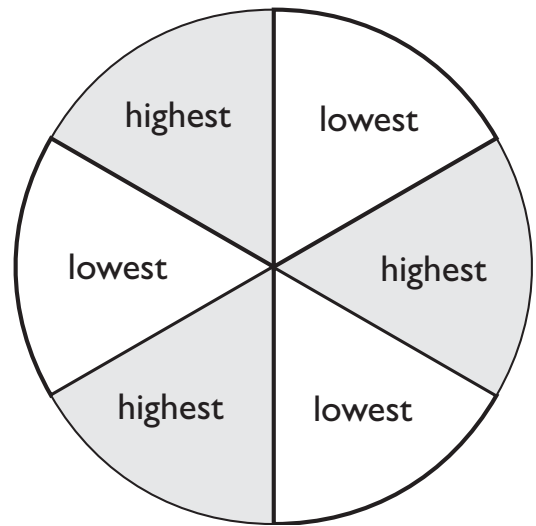

When you have both created your two numbers the game is over.

Hold the paper clip in the centre of the circle with the pencil, and spin it.

Say whether you get 'highest' or 'lowest'.

If it's 'highest', the person who made the highest number wins.

If it's 'lowest', the person who made the lowest number wins.
