

## Maths Pedagogy

Agreed pedagogy for the teaching of Maths at St Mary and St Peter Catholic Primary School

We strive for children in our school to have a confident attitude towards Maths and to believe in themselves and their ability. We agree that the following core strands are crucial to the successful delivery of the Maths curriculum:

- Demonstrate a quick recall of facts and procedures. This includes the recollection of the times table.
- Achieve expected standard objectives for each year group.
- Have the flexibility and fluidity to move between different contexts and representations of maths.
- Develop the ability to recognise relationships and make connections in maths lessons.
- Masters mathematical concepts or skills by showing it in multiple ways, using mathematical language to explain their ideas, and can independently apply the concept to new problems in unfamiliar situations.
- Show a high level of pride in the presentation and understanding of the work
