

## Winter Knowledge Organiser- Nursery

In **Nursery** children will learn the following:

### Seasons- Winter

By the end of this topic, we want the children to have an embedded knowledge of the following:

- Know that in Winter the weather gets much colder causing growth to halter.
- Know that some animals including squirrels, hedgehogs and bats hibernate.
- Know that some animals have to hibernate due to the harsh weather conditions which may result in fatality.
- Know that in Winter, the temperature gets so cold and things being to freeze and turn icy.
- Know that in Winter, we wear appropriate clothing including hats, scarves and gloves.

Key vocabulary your child will learn and can define are:

<b>Winter</b>	A cold season that begins after Autumn.
<b>Hibernation</b>	The period when an animal stays dormant (asleep) during the cold Winter months.
<b>Weather</b>	The change of state in the atmosphere. For example: rain, cloud, thunder, sunshine etc.
<b>Temperature</b>	Temperature is used to describe how cold or hot something is including the weather or food.
